The plan is to arrive 1/4 1 PM. Stay thru 1/20. Be already in place when Congress tries to get to their meeting 1/6. Make sure they know who to fear. Then clog the streets in our vehicles so nothing can move for 2 weeks. This plan was first announced this Summer in an AMA here, hosted by a State legislator. I hated it then but with this timing I understand why it's needed now. The most important dates are 1/6 and 1/20.

▼ THE ARTERIES OF OUR CAPITOL WITH ALL THE JUNKERS YOU CAN MUSTER!!!  
Build the blockade with parked, disabled junk vehicles by the hundreds. Get all your friends and families to donate their old junk vehicles!! The bigger, the older, the rustier & heavier the better! Stuff them with rotting deer carcasses, garbage, biohazardous materials, whatever....Drive em or tow 'em into the appropriate arteries, then park 'em blockade-style. Finally, after disabling the engines, abandon them and join the march.

▼ I read all day so I can't remember where I read this but someone noted that 1/20 can be pushed past also, even though it's in the Constitution. I went wha? But he said the date used to be in early March, then somehow got pushed back, maybe unconstitutionally, or something. (Sorry for unusually low-grade explanation but it's researchable)

Who knows what fuxkery will happen in airports and I'll never trust an alphabet agency, esp one as incompetent as TSA.

There are a lot of patriots around DC still—even if we're embedded—that will make sure the countrymen beside us have the means to defend themselves.

Correct, reagan national (DCA) is in arlington. You may check firearms but still, once you cross over the potomac, there is a complete firearms ban..

----Except----

If you are active duty law enforcement or possess retired law enforcement credentials. You may carry concealed within DC.

Last time I drove in I stayed with a friend in Rockville and took the train in. Left the car at the train station. Stop less than a mile from Freedom Plaza. Wouldn't want to have my vehicle in downtown DC.

I will be shocked if we just stand by waving a bunch of flags while they go right ahead and certify an illegitimate president. The idea of showing up to "protest" and air grievances should not be the goal. The goal should be that they WILL hear our voices or there WILL be consequences. The need to know that 100% or this will be a failure on epic proportions.

This is a historical opportunity that will change the world just like the signing of the Declaration of Independence or winning WWII. And we get to be part of it.

Success will be measured by forcing the DC rats too listen to our voices. That we w  
accept a fraudulent election and their fraudulent chosen president. If they refuse, th  
at their own peril.

I don't see Trump sending any federal resources or military in to help the local corrupt

Question - dont you guys think Trump would make it a little more obvious if he wanted us to come and Fight? I mean he has an Emergency Broadcast System he could use... I don't see why he would not just explicitly say what he means?

Every day that goes by, I'm having more concerns about what this is about. On the night of the first tweet, I was intrigued by his words. I was also expecting to see more information come out, but nothing since. He then said martial law is fake news and that brought a lot of concern here. Almost like he's saying that he's not considering using any government power to stop this fraud and steal.

As Owen Shroyer has said today... We don't need a Commander and Tweet, we need a Command and Chief.

**PRO TIPS: "If something can fall off you, it will. Including backpacks..."**

### 3. Do NOT bring anything you cannot afford to lose...

The later you get into the day, the more likely something will happen. That said, in some situations, attacks will happen just at the beginning of the day before anything really gets started... chances of seeing death and destruction at "protests" goes exponential after about 10PM. It's like a magic hour.

You will also see "shift changes" as some people only come out after dark...

Abrupt weather changes often leads to drama."

We know our ideals and should audit their actions vigorously and snatch away their ability to use our funding for their abuse. Force them into another party. It's bullshit, but until we all decide that it's all out war and media narrative doesn't matter anymore cause winners write history, it still matters.  
We are in the middle of a propaganda war. The enemies goal is to push us to violence first to fit their narrative framework. They escalate, we respond. Otherwise it is a trap.

They lie openly and commit horrendous acts. You think a crowd of yelling peaceful protesters is going to actually change anything? Perhaps you should examine things before you call out anyone as being dumb. A crowd of yelling people is about as useful as a garden decoration. It doesn't do anything. Once it's off it's leash everyone is in danger always. I get it. Communists only respond to force. They only respect force. It's true. History and example have shown it again and again. It may be inevitable.

There's a time and place though. Where will we be? On who's ground? Who's fight will we be stuck fighting? Is our strategy to march rank and file? Are we built for that fight?

"peaceful action!" I once saw that slogan many years ago when protesters were marching

what a silly oxymoron. Peaceful Action... They were dispersed and everything went back to normal. Nobody cared.

Meaning no disrespect, but... What do you think will happen if we just show up and yell for awhile?

propose that the last protests were effective at holding the line and this one is different. this is the first the president requested. this is the first on a workday.

he asked us to show up. he asked for numbers. try to bring 3 friends each. we need well over a million.

our numbers alone with speak volumes, they aren't stupid they know that every head equals a rifle. we don't have to show them to make the point.

"know thy enemy".

Yes, they are stupid, in fact. It's an advantage for them.

We're not dealing with people who are like us. We're dealing with hate-mongers who are fanatical. Fanatics are not cowards; they are narcissistic posers who will die for imaginary cult-like beliefs, ignoring evidence to the contrary, and who absolutely believe that they are the main character in the story. Each, one. People will get shot, but for them, everything will turn out OK. Because they are the main character in the story. Safety in a grand delusion.

I'm sorry, but in my humble opinion, your notion that all we have to do is show up, is false. Very false, actually. They'll run Biden through anyway. And we'll all go home. Because they know we'll take it, suck it down like a shit sandwich, and go home while they smile and wave at our backs.

You underestimate the power of TDS. In summary I conclude, **you are the one who is wrong about this.**

I really do hope you don't find out how much you are wrong. But I think you will. I still pray the outcome will be different.

Wearing a mask is a tactical means to keep your face from being on social media. Think about it. In 2019, if you walked into a store with a mask covering your face you would have the cops called on you. Now who knows who is carrying something in their jacket with no facial recognition? Until this is over, wearing a mask is a good way to protect your identity unless you simply like getting doxed.

Prediction: There will be a pretty big march on Jan 6 and we'll beat some antifa asses there too and it'll be cool but meanwhile congress will verify Sleepy and Camelas victory as the scared and corrupt courts continue to throw out our challenges. GEOTUS will continue to whine on twitter and keep shouting at various 3 letter agencies to DO SOMETHING while they jack off and investigate garage door pulls.

▼

Meanwhile Qtards and trust the plan tards will say JAN 6?! WHAT JAN 6?!?! WHEN DID WE EVER GIVE A FUCK ABOUT JAN 6?!?! WE DIDN'T SAY IT WAS GOING TO GO DOWN ON JAN 6, WE MEANT JAN 20TH GUYS COME ON HOW EPIC IT'LL BE IF SLEEPY IS ARRESTED AT THE VERY LAST MINUTE JUST BEFORE HE PUTS HIS HAND ON THE BIBLE AND ROBERTS AND PELOSI AND ALL OF THEM TOO GUYS IT'LL BE INSANE WE'RE JUST WATCHING A MOVIE SIT BACK WITH THE POPCORN AND CHILL GUYS!!!

OF COURSE COME DOWN AT MY ALEX COO F WATH AND WATCH ME AT THE NOV...

Go ahead, call me a doomer and get it out of your system. But this is my first even remotely doomer type post after months and months on here. You can check my history -- I'm a certified shitposter in chief and have been as optimistic as I could possibly be. But the clock is ticking. And it seems the faggot deep state advisors around GEOTUS like (((Jared))) and others are trying to talk him out of military intervention or refusing to leaving the white house.

These 4 years have been defined by him being too nice, or even too naive you might say. This is the final window where he can choose to harden the fuck up, drop the pussies, and listen to the real ones and loyalists like Flynn and Lin Wood. That's the only way he can prove my above predictions wrong. I'll lay out how, since I'd still like to at least end on a hopeful note -- In a way the radical left is our only hope now. How, you ask? Because it is possible they might do or say something so outrageous in this remaining window that he finally snaps and stops playing Mr Nice Guy. Maybe threaten Barron or something. So please, you treasonous leftist fucks, do your

worst and ape the fuck out so that GEOTUS may finally see the light and become the beast we've all been waiting to see.

"United States presidential election of 1876, disputed American presidential election held on November 7, 1876, in which Republican Rutherford B. Hayes defeated Democrat Samuel J. Tilden."

"The country faced an equivalent situation in 1876, when claims of voter fraud forced a special electoral commission to decide the election just two days before the inauguration."

"The resolution did not occur until two days before Inauguration Day (which then was in early March). In response to this barely averted constitutional crisis, Congress enacted the Electoral Count Act of 1887 in an attempt to formalize procedures for how Congress should handle future Electoral College disputes."

Edit: Doomers downing voting, think for 30 seconds before you let your emotions wash over you. Trump stated multiple times there will NOT be a peaceful transfer of power IF there is fuckery with the election. There was. EO 13848 was drafted in 2018 and deals directly with election interference. Doesn't take a lab coat to figure this out. He's not leaving office.

Trump told us multiple times, when asked if there would be a peaceful transfer of power, that it wasn't going happen if there was any fuckery and there was. It doesn't take a rocket scientist to piece it together. I did a write up on the EO 6 days ago. Read it then read the EO yourself.

The military will have to take commands from someone. That person will be the person who is president. It's very realistic that's Trump for a short or long time. It's a genetic thing. They both sleep/slept 4 hours a day and were able to function fine. I actually can do that too, but it's not healthy so I choose not to. It actually has to be 4 hours. No more or less. It's a strange sweet spot.

If you literally sell out your entire country and you are part of a massive voter fraud you go to fede..... wait a minute... Law and order is dead. You think they gonna put a million people in federal prison? Good luck with that. What you are describing is true if you are doing it as individual. They can't stop or arrest IF you show up with at least a hundred thousand people with guns. Not even if they really wanted. It simply ain't gonna happen. You can argue whatever you like but if you think LE can stop a march like that you are out of your mind. Even the military will have problems controlling a mob with guns that big.

57 Look up the following individuals as well:

- Oliver Cromwell
- George Washington
- Abraham Lincoln

These are all GREAT leaders who set aside the laws and constitutions of their governments in a critical time when evil men were hiding behind those very same things.

If government EVER begins infringing on the rights of the people -- It SHALL be altered or abolished! We may tolerate a few infractions, BUT WE WILL NOT TOLERATE IT FOR LONG!!!!

Cromwell would be a Democrat. Killed Christmas, staged a coup against the lawful ruler, and created famines. A complete tyrant whose only redeeming quality is that he put England and Scotland on a course to such utter tyranny that the Founding Fathers would create our country a century later.

21 ▼ I want to go, but I'm barely an adult and have never driven out of state. I live in Oklahoma and it's a 17 hour drive to DC. I'm not sure if I could afford it.

I feel like I'd really regret it if I don't go, but I'm not sure I can...

I believe that Milo was sincere in his support of Trump.

Since then, as seen in that video, Milo was betrayed by the people of the Republican party. TI selfish clown he refers to could be the appointed Justice rather than Trump. However, if some wants to claim that sometimes Trump has been foolish, I would agree -- and so would anyone has observed enough and had some critical thought.

Tbf I never really liked Milo, so I'm a bit biased. I did appreciate the role he played though. After the whole debacle with the mods on og TD, I never trusted the guy and I can see why no one stretched their neck out to vouch for him after getting kicked from CPAC. I agree that it's ridiculous that no one has stood up for people who get deplatformed from every outlet possible, regardless of what they said in the past or currently.

6 I heard that trump wasn't there for this one. They have been having multiple christmas parties at the white house - the first family only shows up when there are actual important guests there. The rest are just wine and cheese photo-ops for the hangers-ons. It's not speculation, it's just how politics works.
